# Detailed itinerary

➡ Our trip starts with a meet-and-greet and briefing by your guide/s (usually held at 8am) in Katoomba. Then we transfer to Katoomba Falls Reserve, where our hike begins!

➡ After marveling at the power of the Falls as the water cascades into the Valley below, we walk through to Echo Point, the most popular lookout in the Blue Mountains, for views of the iconic Three Sisters. After making use of the amenities if required we're back on the clifftop trail passing numerous lesser-known lookouts all of which offer a different perspective of the Jamison Valley.

➡ Whilst we spend most of our time high above the Valley, we'll also pass through a number of pockets of lush deep-green remnant rainforest where a quick splash of the cool creek water on our faces will provide welcome relief if the day is a hot one. These pockets of rainforest will also allow us the opportunity to listen for birds calls and perhaps even see a lyrebird.

➡ The trail is not devoid of steps as this is the Blue Mountains! There will be sections of trail that we can stride out on the flats, and there will be sections that we'll take our time descending and ascending. Throughout the hike you can admire the natural world in all its glory with spectacular views, as well as delightful flowers and rock formations.

➡ Our day concludes with a final view from high above the most well-known waterfall of the Blue Mountains – Wentworth Falls.

➡ Meals included: Lunch is a delicious sandwich of your selection, prepared by a local deli and enjoyed on route.
